**DESCRIPTION and USES**

A heavy-duty, gloss enamel that features very fast dry and a wide color range. Excellent for use as a multi-purpose, fast-drying finish on machinery, equipment, aisle marking or wherever a durable, fast-drying paint is needed. Although this paint has a very fast air dry, it can be forced dry with heat when used as an OEM finish. This paint is suitable for both interior and exterior applications. This product is not VOC compliant for architectural use and is intended for use in a controlled environment by qualified personnel.

**SURFACE PREPARATION**

All surfaces must be dry, free of dirt, grease, rust and loose paint. Rough surfaces should be smoothed with sandpaper. Prime bare surfaces with the recommended primer. When painting over previously painted surfaces, apply a small sample area to test for lifting.

**APPLICATION**

Best applied with conventional, HVLP or airless spray. Small areas may be rolled or brushed. Use as supplied for brushing. Do not apply at temperatures above 90°F or below 55°F.

**SAFETY INFORMATION**

NOTICE: Reports have associated repeated and prolonged occupational overexposure to solvents with permanent brain and nervous system damage. Intentional misuse by deliberately concentrating and inhaling the contents may be harmful or fatal. For complete safety information, refer to the SAFETY DATA SHEET for this product.

**COLORS**

White, Black, and RepcoLite Industrial Color System Selector. Custom colors can be formulated to customer specification.
